

2023

Register № 153/23

Date 21.03.2023r.

**To Whom,  
It May Concern!**

I am writing to draw your attention to the existence of an authorial, know-how, environmentally-innovative project - the «ECOBIX - Waste Separation System» which has a positive impact on people's attitudes towards the environment.

**ecobix**<sup>®</sup>  
INTERNATIONAL

I appeal to your sense of environmental responsibility in the hope of support as a customer or possible desired participation.

The project's sustainable development creates a balanced interaction between humans and nature.

The project will help ensure proper recycling of secondary raw materials and significantly reduce the amount of waste sent to landfill, while conserving both fossil and financial resources.

We, a close-knit team of experts and professionals from Ukraine, using cutting-edge technology, innovation and digital solutions have created the unique «ECOBOX - Waste Separation System» for simple and efficient collection of various, segregated waste types.

Liaison Officer

**We guarantee:**

- the right motivation for people to do useful work;
- assignment of work roles according to abilities and characteristics;
- supervising the fulfilment of tasks.

## Project idea

Maximise the dissemination  
of interactive Ecobox modules  
to implement the -

**ecobox**<sup>®</sup>  
INTERNATIONAL

MADE IN UKRAINA

## Project Features:

- module is set up for effective communication with a person to receive waste segregated by type;
- a person knows where, when, how much and what type of waste they put in the "ECOBX" compartments with the help of a mobile app;
- for each waste split using blockchain technology, conditional units of "virtual" currency are awarded, which can then be withdrawn or exchanged for goods from project partners at a certain discount.

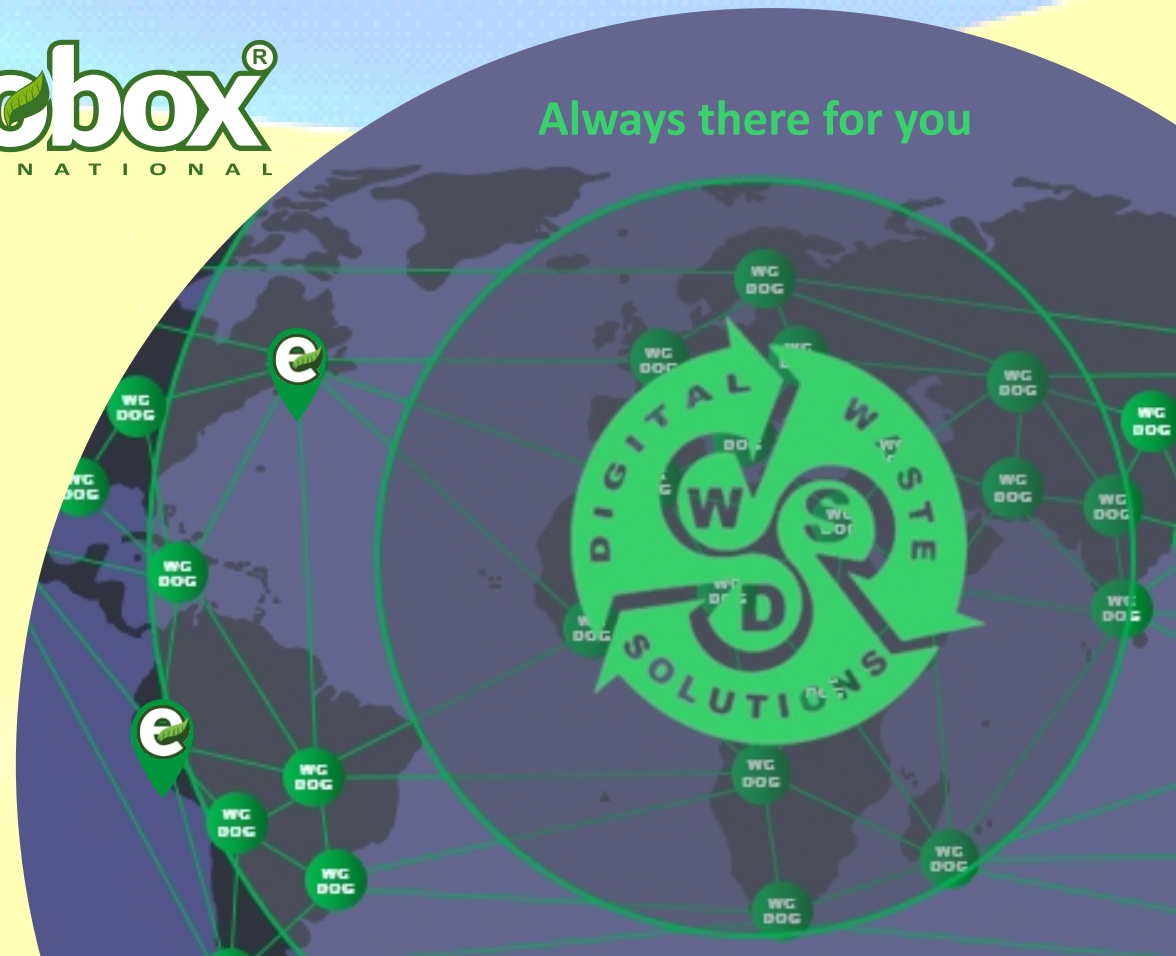

Thanks to a possible partnership,  
you will witness  
the rapid scaling of the  
"ECOBBOX - WASTE SEGREGATION SYSTEM"

Always there for you

And also the creator of the history of the real  
fight against climate change and  
environmental degradation.

We would be honoured  
if you would support this project and help create  
a better future for us and our planet.

Our team is ready  
to organise and implement an ECOBOX project  
in your desired village, city or country of the world!

Despite  
age, nationality, religion and social status -  
"ECOBBOX" brings people together for ecological progress.

Willingness to consolidate to clean up and preserve the environment is  
honour and responsibility, awareness and respect, action and results.

Thank you for your time and attention,  
we look forward to your decision!

Respectfully,  
Founder,CEO  
Alexander Solovyov
